Mull It Over

Did you know that BWI uses fat boy mull posts on all exterior sidelite units? Fat boys are 1/2" wider than our competitors mulls at **2-1/2" wide**, and add strength and stability to our units. Go ahead. Install a hinged patio, single and/or double sidelite system without fear.

Easy Re-handling with Panolock

Did you know that you could switch handing on the Pano Lock in the field with a 9/64" allen wrench? It's easy! And Panolock is still compatible with most off-the-shelf hardware.
